ABOUT ME

Highly organized and self-motivated, always determined to figure out a solution to any problem. I am personable, outgoing, creative, enthusiastic, and a team player. Seeking an opportunity that allows me personal career growth and the ability to contribute to a company's growth and profitability. When I'm not designing websites you can find me hanging with my dog Poe, going to concerts, kayaking, reading, making art, or spending time with friends and family. ENFJ.

WORK EXPERIENCE

Software UX Designer

Bernard Health   Nov 2020 - Present

As the only designer on the product team, I am responsible for the user experience for BerniePortal. BerniePortal is a software solution that helps optimize HR experiences for both the employer and their employees.

UX Designer

GS&F   August 2016 - Oct 2020

Responsible for envisioning, ensuring and improving the quality of user experience for products, services and campaigns throughout their design and development. Viewed as an innovator, collaborator, designer, problem solver, product owner and thought leader for design teams and client partners.

Teacher Assistant

The Iron Yard   February 2016 - June 2016

I assisted a 12 week immersive program for Front End Development. Helped students locate, fix bugs, and design with intent. Gave guidance to students who might be struggling to keep up with the pace of the class. Communicated with co-workers to help develop strategies to ensure student success.

EDUCATION

Front End Engineering   The Iron Yard • 2015

Bachelor of Fine Arts   School of the Art Institute of Chicago • 2010-2012

Fundemental Classes   Savannah College of Art and Design • 2008
